

Cycle Stands

Bespoke & Stock Items

Mild Steel - Galvanised, Powder Coated & Stainless Steel

Lockinex[®]
great service, great quality

INTRODUCTION

Each style is supplied with either base plates for simple bolting down or longer legs for concreting in. No assembly is required. Each stand is suitable for storage of up to two bikes.

Colour matching to RAL colours is available for any of the styles.

Lockinex™ cycle stands are available in the following tube diameters, 42.4mm, 48.3mm & 60.3mm.

APPLICATION

Lockinex Cycle Stands have been used in areas such as Sea Fronts, Office Car Parks, Public Car Parks, Public Buildings, Recreational Areas etc.

DESIGN

Three of our designs are manufactured and kept in stock for immediate despatch.

Items with powder coated finishes, Stainless Steel or including bespoke designs will have a lead time, to allow for these processes to be carried out.

COMPOSITION, MANUFACTURE

Manufactured generally from tube, our stock items come galvanised with base plates or with extended legs for concreting in.

Bespoke items can be made in many different type of materials, to the clients own design.

Materials used range from mild steel & Stainless Steel.

Various finishes include galvanised, powder coated, bright polished & satin finishes.
